VELKO HINGE SUPPLIERS AND VALUED CUSTOMERS

RE: DODD-FRANK ACT-SECTION 1502
CONFLICT MINERALS PROVISION
DISCLOSURE STATEMENT

The Dodd-Frank Act Section 1502 concerning Conflict Minerals restricts the mining source of the following minerals:

Gold, Tin, Tantalum, Tungsten

Velko Hinge Inc. is committed to complying with the above mentioned legislation in regard to " Conflict Minerals " and plans to comply with the forthcoming regulations to enable designation of all Velko Hinge products as "Conflict FREE".

Based on our purchase policy and supplier selection, we believe it is considered highly unlikely that any conflict minerals are used in the manufacturing of our products. Never the less, Velko Hinge Inc. has defined and started a program of extensive due diligence of our supply base to ensure that this indeed is the case.

In addition to the action mentioned above, Velko Hinge Inc. will take the appropriate actions to fully comply with the regulations regarding the conflict minerals and will support efforts by its suppliers and customers to reach our common goal to build up a socially and responsible supply chain.

Sincerely,

Alina Jansen
President
